First half 2017 results: DFNN increases its revenue by 880 percent and net income by 456 percent

Taguig, Philippines, 7 August 2017 – Publicly listed I.T. firm, DFNN Inc. (PSE: DFNN) (“DFNN” or the “Company”) reported today a revenue of Php556.9 million for the first half of 2017, an 880% increase from the Php56.8 million posted in the same period last year. Additionally, DFNN reported a net income of Php101.8 million—a surge of 456% from the Php18.3 million disclosed in the first half of 2016.

DFNN’s robust performance is attributed to the increase of platform affiliates (independent operators that use the Company’s technology platform). Affiliated sites increased by 154%, while the number of terminals using its gaming products increased by 385%.

“We are very pleased to share our first half results,” Ricardo Banaag, COO of DFNN states. “The Company is understandably incurring continuous costs due to increased expansion activities. However, we are confident that the launch of new products under our suite will sustain this progression through to the second half of 2017.”

In the last year, the Company brought in additional software providers under its gaming suite, such as: Alfastreet, Pragmatic Play and Real Time Gaming. It also completed key platform upgrades to its data and support center infrastructure to make it even more robust, secure and responsive.

In order to better support its platform affiliates, the Company plans to establish several satellite offices located outside Metro Manila.
